Royal College of Vet. Surgeons.	2002	CertWEL.(including Ethics & Law)
Council for Forensic Practitioners.	2005.	RFP.
Council for Forensic Practitioners.	2005	Assessor for CRF.

### Business and Professional employment.

Five successful professional partnerships.

Now a sole trader, mainly as a Mediator, and also as a Veterinary Surgeon for specific referral cases.

A director previously of five different Companies, the specific interests of which were: Merchant Shipping and Ship Ownership.

Equine Insurance.

Farming.

Land acquisition and Mineral Reserves.

Computer Contracting Services.

Veterinary Expert Witness. (retiring from this arena on completion of present cases).

For over twenty years I have acted as a professional expert witness, and have given reports in both Civil and Criminal Courts (Arbitration, Magistrate and Crown Courts). I have extensive experience of litigation and the knowledge and understanding of how civil disputes may often be better resolved through the medium of mediation.

### Mediation.

In professional and business work I have been involved for over forty years resolving disputes, eventually gaining formal qualification as a Mediator in 2000. Since that time I have gained vast experience in the solving of all types of dispute, which vary from interpersonal problems (including personal injury and negligence), contracts, partnerships, and sales and supplies.

### Dispute Subjects.

All forms of Civil Dispute.

Professional/Client disputes and claims for professional negligence.

Partnership disagreements (small to major problems). Professional and non-professional.

Disputes within or between members of professions. (Medical, Nursing, Veterinary, Veterinary Nursing, Physiotherapy, Farriery etc.)

Disputes with service providers, contractors, builders, landlord/tenant.

Personal injuries, sustained in work, the social arena or with local authorities.

Custody of animals.

Farming.

Sales of horses.

Contracts: Domestic and business.

Land boundaries and Restrictive Covenants.

Property disagreements.

Building and eg. double glazing.

Debts and loans.

Examples may be varied and sometimes bizarre, from an unsatisfactory Grand Piano to the delivery of thirty tons of unsuitable cement.

Marriage and child care problems are guided to mediators who specialise in these areas.

### Mediation Sources.

Sources have been the Academy of Experts, National Mediation Service, Civil Courts redirecting cases, Solicitor recommendations and word of mouth from previous parties.

### Training in Mediation .

My CPD and continual reassessment are compulsory, essential and fully attended to each year. Examples are, training for "Short Duration" (three hour) mediations, Marine Mediations and Employment disputes.

Advice and information is readily available.

Just phone or email and we can have an informal confidential chat, which may or may not lead to a formal reliance on Mediation.

"A mediated outcome is a positive outcome !"
